

PREFACE
About Art Education in Action

Art Education in Action is an annual program presented by the Arts Council of Snohomish County. It is designed to reach school children in grades 3-12 with art experiences that enlarge their worldview and to provide art education support for teachers. Program goals include the following:

- Develop students' interest in and appreciation for a wide variety of art media and diverse cultural values as expressed through art.
- Inspire students to create art themselves.
- Expose students to the experience of viewing an art exhibit in a professional gallery (gallery etiquette) and stimulate a life-long interest in the visual arts.
- Provide written interpretive materials to accompany the exhibit.
- Enhance art education in Snohomish County schools by providing curriculum materials to instructors.
- Provide bus subsidies to offset transportation costs, enabling students from outlying areas to attend the gallery program.
- Present an educational exhibit to the community, free of charge.
